IN THE HOUSE OF REPRESENTATIVES

A BILL

- To amend the Public Health Service Act to authorize grants to eligible entities to pay for travel-related expenses and logistical support for individuals with respect to accessing abortion services, and for other purposes.
 - 1 Be it enacted by the Senate and House of Representa-
 - 2 tives of the United States of America in Congress assembled,

3 SECTION 1. SHORT TITLE.

- 4 This Act may be cited as the "Reproductive Health
- 5 Travel Fund Act of 2022".

 $\mathbf{2}$

1 SEC. 2. FINDINGS.

2 Congress finds as follows:

3 (1) On June 24, 2022, in its decision in *Dobbs*4 v. Jackson Women's Health Organization, the Su5 preme Court overruled Roe v. Wade, reversing dec6 ades of precedent recognizing the constitutional
7 right to terminate a pregnancy.

8 (2) The abortion access landscape was already 9 strained. This decision will decimate access for mil-10 lions of people in the United States. Roughly half of 11 States are predicted to ban or severely restrict abor-12 tion in the coming months.

(3) The implications of this decision will fall
hardest on people who already face barriers to
health care access, particularly Black people, Indigenous people, and other people of color, people with
disabilities, people in rural areas, young people, people with documentation barriers, and those having
difficulty making ends meet.

(4) People have always had abortions and always will, even in the face of legal, financial, and
logistical barriers, or criminalization. While some
will self-manage their abortions, and have the option
of using pills that are medically safe and effective,
many others are traveling hundreds of miles out of
State, or forced to carry pregnancies to term.

(5) Abortion funds and practical support funds
 are community-based organizations that support
 people in overcoming financial and logistical barriers
 to abortion care.

5 (6) Funds work together to remove financial
6 and logistical barriers to abortion access and have
7 been doing this work for years. Some of these bar8 riers are, but are not limited to, transportation,
9 food, lodging, childcare, translation, and doula serv10 ices.

(7) Many funds are led by people who have had
abortions themselves, including a growing base of
Black and Brown leaders who have themselves faced
abortion obstacles and understand the complex circumstances callers may face.

16 (8) Abortion funds have a history of being
17 underresourced and rely mostly on volunteer time
18 and energy to support communities.

(9) Abortion and practical support funds hold
some of the closest ties to people who are having
abortions and have the first-hand experience, up-todate and on-the-ground knowledge, and the regional
and national connections needed to support abortion
seekers financially, emotionally, or logistically.

(10) Clinics in States where abortion is legal
 and more accessible are receiving an influx of people
 seeking abortions. Provider shortages plus this rapid
 increase in patients will cause longer waits for appointments.

6 (11) When people are not able to access an 7 abortion when they need it, they are often pushed 8 much further into pregnancy. This increases costs 9 exponentially. For many, the increased financial bur-10 den will push abortion care completely out of reach.

(12) A rapidly changing access landscape, as bans are implemented and challenged, means that the window to access care in certain States may be limited. People who are put in a position where they must postpone their care due to financial or other constraints may face appointment cancellations due to overnight changes in legality.

(13) Funds often work with each other if they
cannot fully assist a caller, or if a caller is traveling
across regions. A national network of almost 100
abortion and practical support funds has demonstrated these funds are uniquely positioned to lead
in this moment and need support.
